Non-Seasonally Adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers

Overview

This section constitutes only a brief overview of the non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers. The index is described in more detail under “The Underliers — Non-Seasonally Adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers” in the underlier supplement referred to in “About This Index Supplement” below.

The non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers (currently published on Bloomberg page “CPURNSA”), which we also refer to in this index supplement as the “index,” is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services, including food, clothing, shelter, fuels, transportation, doctors’ and dentists’ services, drugs and other goods and services that people buy for day-to-day living. The index is reported monthly by the Bureau of Labor Statistics of the U.S. Department of Labor (the “BLS”). The BLS sets the average index level for the base reference period — the 36-month period covering 1982, 1983 and 1984 — equal to 100, and then measures changes in relation to that figure. The level of the index for a particular month is published during the following month. In calculating the index, price changes for the various items are averaged together with weights that represent their importance in the spending of urban households in the United States. The contents of the market basket of goods and services and the weights assigned to the various items are updated periodically by the BLS to take into account changes in consumer buying habits or shifts in population distribution or demographics.

We have derived all information contained in this index supplement regarding the index from publicly available information. Additional information about the index is available on the following website: bls.gov/cpi/. We are not incorporating by reference the website or any material it includes in this index supplement.
