Open Access Plus (OAP) – You have the flexibility to see any doctor or visit any hospital of your choice. However, you will pay significantly less money out of your pocket if you use a doctor or hospital that is in the network. Preventive care services are covered at 100% as long as your physician bills your visit as preventive. For most doctor and specialist visits, you simply pay a copayment at the time of service. You have a great deal of flexibility and choice with an OAP, and can manage your out-of-pocket costs by remaining in network.

High Deductible Health Plan (HDHP) with Health Savings Account (HSA) –

Although you have the flexibility to see any doctor or visit any hospital of your choice, you will pay significantly less money out of your pocket if you use a doctor or hospital that is in the network. Preventive care services are covered at 100% as long as your physician bills your visit as preventive. For other services, including routine office visits, procedures, lab work, prescription drugs, etc., no benefits will be paid until you have met your annual deductible.

The HSA is a bank account paired with your HDHP that allows you to save money on a tax-free basis to pay your deductible and other out-of-pocket medical expenses in the current year or in the future. Qualified medical expenses that can be paid using this account include doctor visits, prescription drugs, and even dental and vision expenses. You own the money in your HSA account and it is yours to keep – even when you change plans or retire. The funds can roll over from year to year and you do not pay tax on withdrawals used for qualified medical expenses.

Medical Flexible Spending Accounts (FSA) – A medical FSA allows you to put pre-tax dollars into an account to pay for you and your family's medical expenses such as doctors office visits, hospital visits, prescription drugs, dental services and vision services. **You may contribute up to \$3,300 in 2025 for the medical FSA.** Note: This option will be available only to those employees electing coverage under the medical OAP plan.

Dependent Care Flexible Spending Account (DCA): Regardless of medical plan selected, employees can establish a separate FSA to pay for eligible dependent care expenses with pre-tax dollars. **You may contribute up to \$5,000 in 2025 for the DCA.** Note that funds can only be used to cover select costs for your eligible dependents (ages 12 and under) to enable you to work. In two-parent households, both parents must work-full time to qualify.

Note: For all FSA plans, the contributed money must be used for qualifying expenses during the calendar year – it cannot be rolled over to the next year.

Generic Prescription Savings Programs

You may be paying too much for your prescription medications. Have you heard of the \$4 Generic Prescription Program? All you have to do is ask your doctor to prescribe the generic version of your medication, if one is available, and drop off that prescription at your local Wal-Mart or Publix. If your prescribed medication falls under the \$4 Generic Prescription Program, you will pay only \$4 (or your prescription co-pay amount, whichever is less). The list of applicable medications is extensive, covering more than 350 generic medications.

Meijer also has created a program that offers leading antibiotics and pre-natal vitamins for FREE - no strings attached. The program covers leading, oral generic antibiotics with a special focus on the prescriptions most often filled for children. In order to take advantage of this program, you must have a doctor's prescription and pick up the medication at a local Meijer pharmacy.

Note: These programs can be used by all individuals, regardless of insurance or copays. Even those individuals without any insurance may take advantage of these savings.

Visit any of the following websites for a complete list of available generic medications and more details on these programs:
